BOB - CADRAIN MEMORANDUM NO. 123

TO: C T

FROM: C 3

SUBJECT: Floor Plans and T/O of CADROIT

Compliance with ☒ Requests

DECLASSIFIED AND RELEASED BY
CENTRAL INTELLIGENCE AGENCY
SOURCES METHODS EXEMPTION 3B2D
NAZI WAR CRIMES DISCLOSURE ACT
DATE 2006

1. The originals of the attachments were brought out by the young man from Goerlitz, who are in possession of SSD files rifled during the 14th June working. I presume that the originals of selected photographs are now in your hands. [] claims that these plans could have been probably stolen by ZIECKLER, the German defector, who East Germany was a box containing CADROIT [] . Since [] box were kept in the same place. [] took the plans along when he stole the [] . I can remember the ZIECKLER defection and his capture about a few months. It would be appreciated if you could provide following points with LADELL:

- a. How much did ZIECKLER take along when he defected; and how was the disappearance of these plans was newly reported?
- b. Which was ZIECKLER's home town?
- c. What, if any, connections are known between the town of Goerlitz and ZIECKLER?
- d. Please notice the name "FLAMBERG" on the plan giving telephone numbers, room numbers and names of persons working in these rooms.
- e. Are these plans still valid, i.e., do some of the persons still sit in the rooms which they were assigned when they originally moved to Limastrasse?
- f. Since the attachments are copies of the originals, would you please find out from C whose handwriting this is?

SECRET
SECURITY INFORMATION

32-154-1-

- f. According to the plan which I have labelled "A", you will notice that the two most important persons aside from [] and [] are LEUTWITZ and LINSE. Could the disappearance of these plans and falling into the hands, and being analysed by the SSF, coupled with an interrogation of/or "cooperation" of ZIECKLER, have resulted in pinpointing and abducting LINSE?
- h. Which CADROIT employees come from, have resided in, or have friends in Goerlitz?
- i. I believe that in view of the information contained in attachments it is warranted that you again "talk" to [] in details as to ZIECKLER's employment with CADROIT, how he happened to be employed by CADROIT, and who his close friends in CADROIT were? Since you might not have been told by your predecessor, I would like to draw your attention to the fact that according to many CADROIT employees who were interviewed during last year's security investigation of CADROIT, ZIECKLER was [] fair-haired boy; and, as reported once before, over strenuous objections by [] but with the permission of HENARD, ZIECKLER photographed most of the CADROIT employees sitting at their working desks. These photographs allegedly were for a private file of []

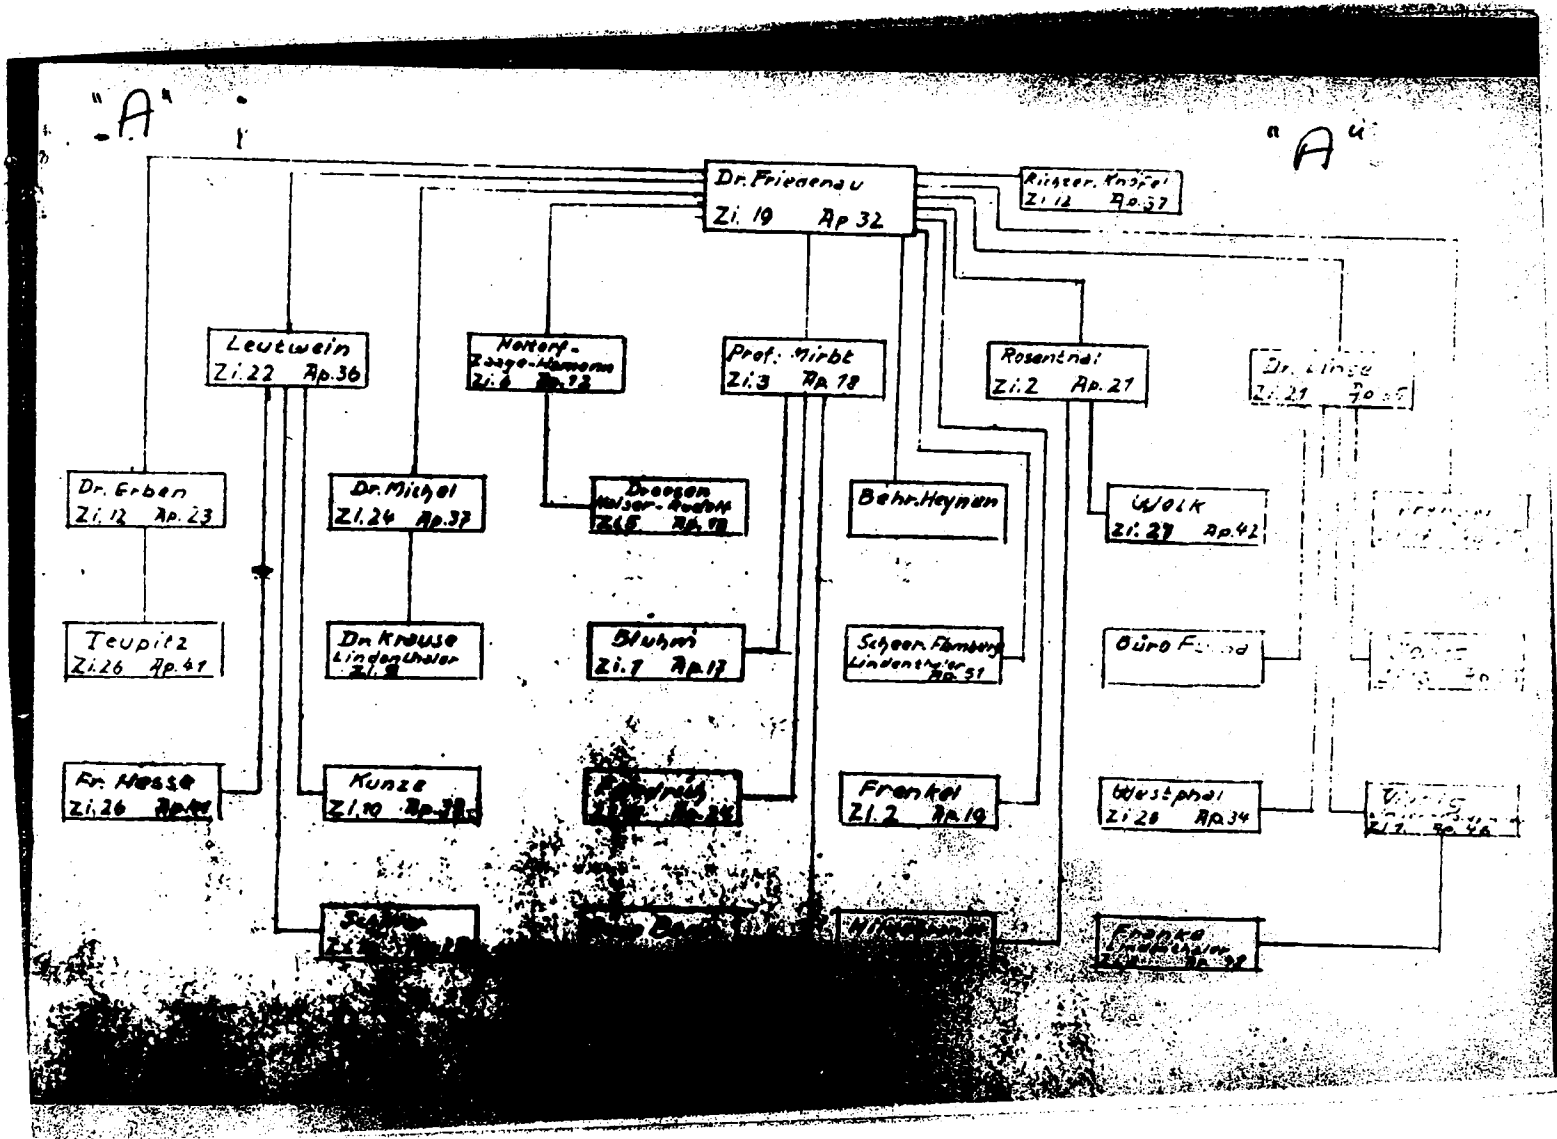

2. In conjunction with above, may I again ask you when we can expect the SSD files from Goerlitz and Bitterfeld. CARBONHYDRATE has met the boys from Goerlitz for the last two Sundays, and they always brought a nice stack of material. According to the other attachment in CARBONHYDRATE's handwriting, you will notice that CARBONHYDRATE has been given permission to give these files to me for not longer than one night! I am sure that you will agree with us that this will never do. Exactly for what purpose, besides "evaluation" does CADROIT need these files? If they really need these files, we certainly would be happy to return them when we are finished with them.

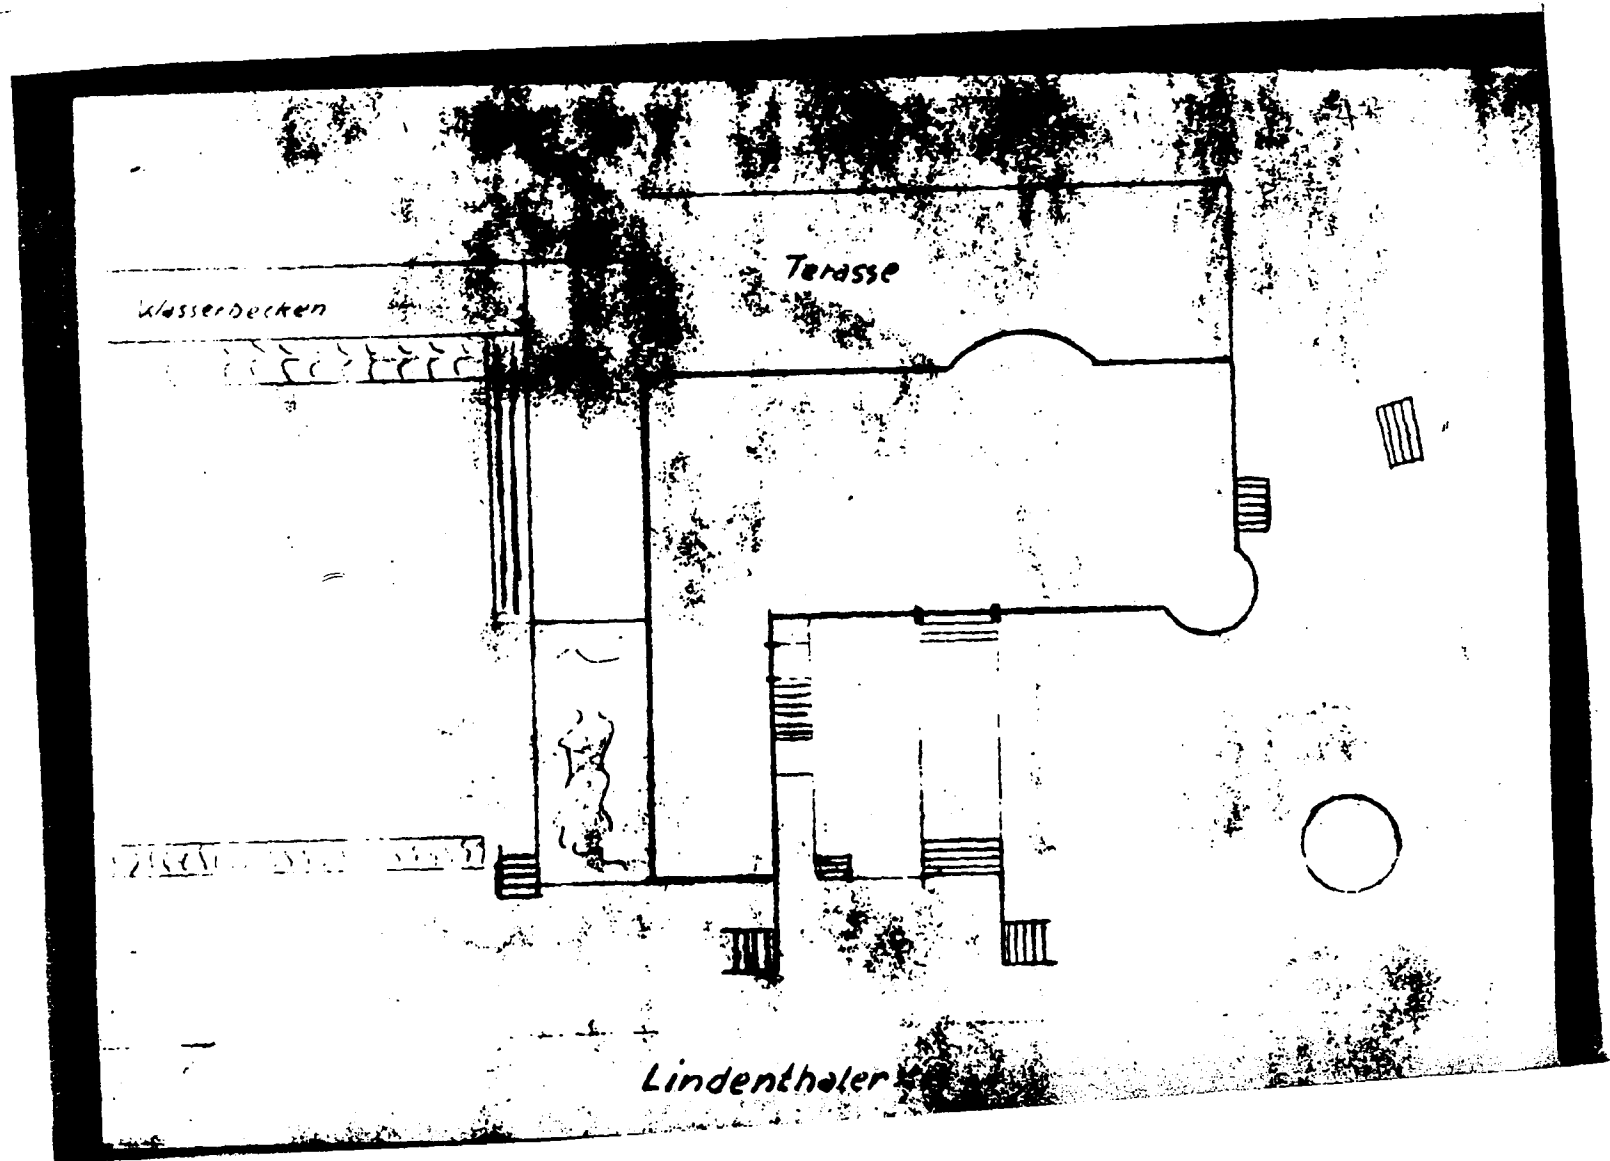

3. May I remind you again that shortly before my illness I referred to you a request transmitted to me by [] in which he wanted the names of all CADROIT mailers (to which you told me that you sent out all these names in a dispatch to Washington and that you would give the number of the dispatch to []), a detailed account as to how often microfilms of CADROIT files are made and forwarded to Washington, and all the biographical data you have in your files on [] himself.

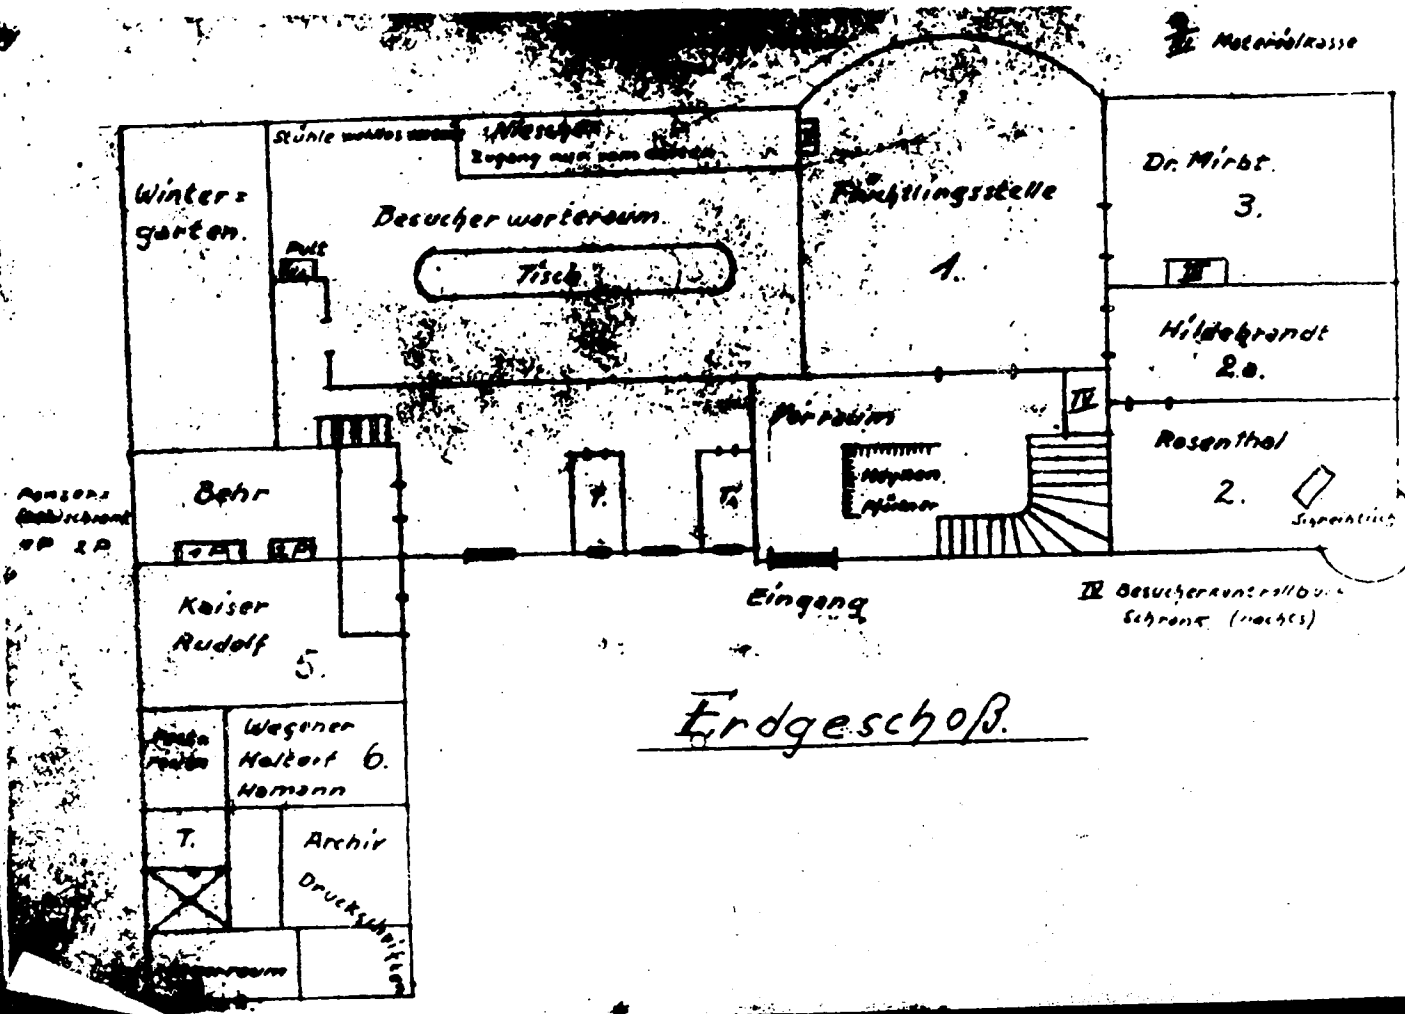

ATTACHMENT:

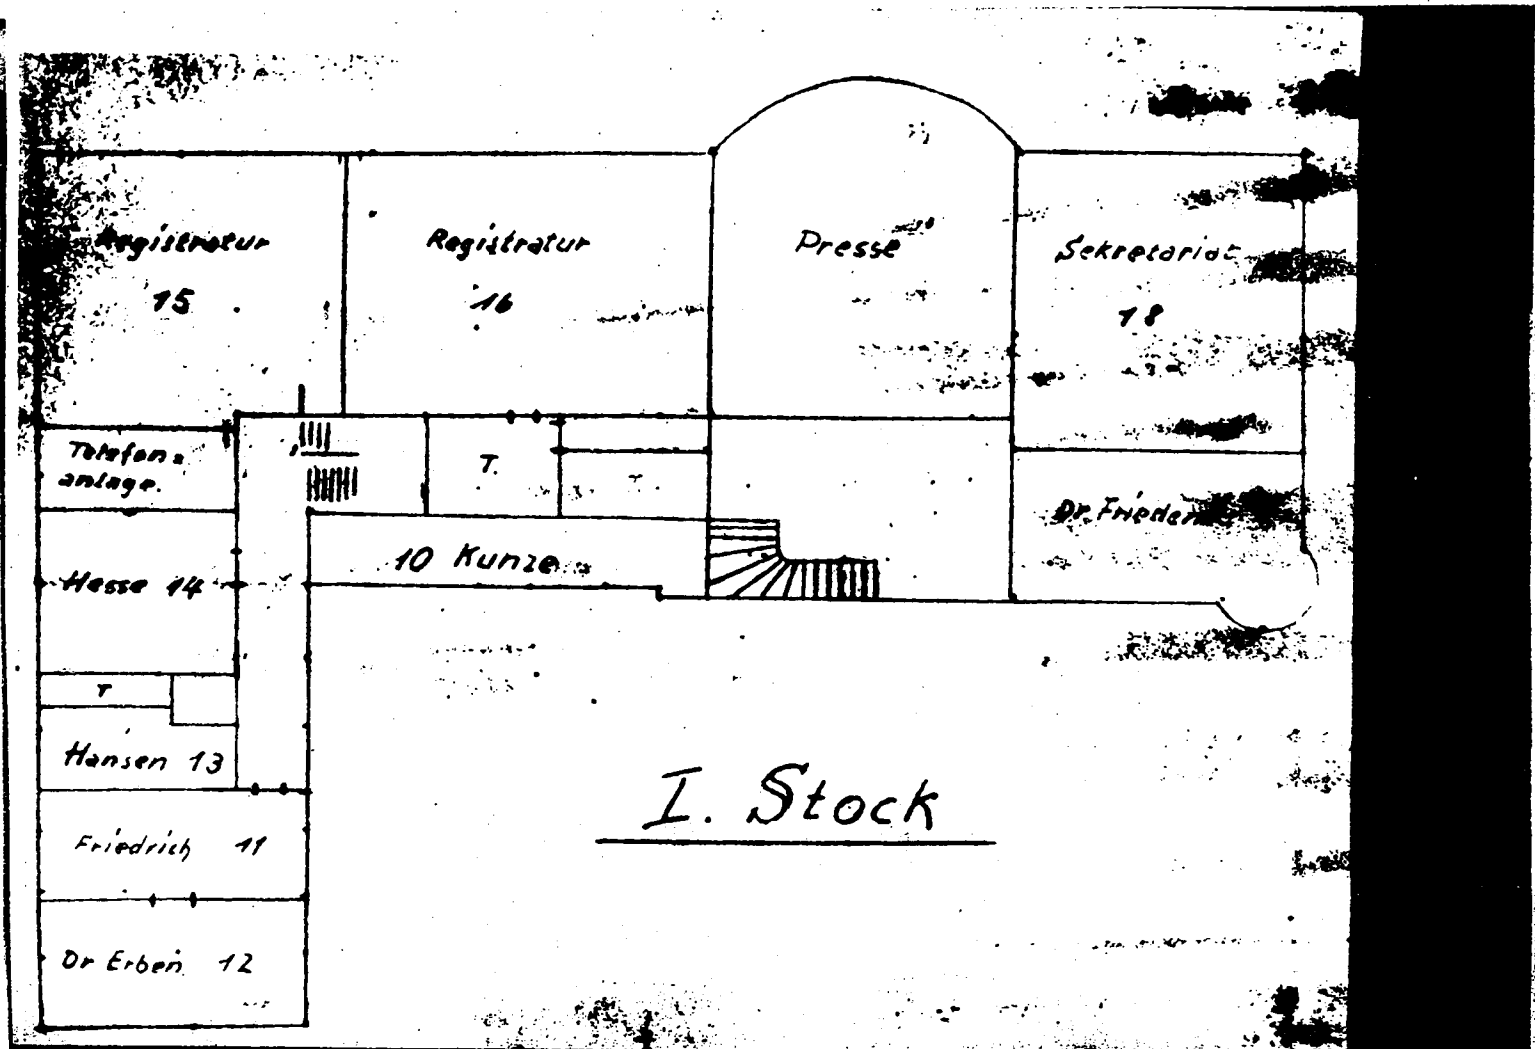

1. Floor Plans (5 pages)
2. Note by CARBONHYDRATE
